

**Sirius Energy Method** is being distributed by Direct Centre from Holland since 2012. Every person is able to learn SEM in one training-session, which takes 1 evening. SEM has got many ways to use for human beings, animals and the environment.

During a SEM – session you are told how to use the method by giving energy to yourself and others by remote sending. The student will get a piece of paper with “how to use” and examples. To be able to apply SEM, each student will receive an “energy transfer” given by the trainer.

Sirius-sessions you can find in several towns and countries. Students are being taught by authorized instructors in a living room. On demand a group of minimum 20 persons can be trained on an mutually agreed date. Cost per person € 50,-

**Become instructor yourself** is possible based on the license-agreement of Direct Centre. First you learn SEM and after that gain sufficient experience in using SEM. Further you should have a good understanding of spiritual topics. To become an instructor you will follow a special session with an extra “energy transfer”. Further details and terms and conditions will be given in a meeting with Direct Centre.

**Combination** of SEM with a kind of physical treatment, like massage, is a good possibility. Combination with other methods of energy treatment where the person is treated using your hands should be avoided. In that case energy can be taken away from the person. The strength of SEM makes it unnecessary to add another method or system. Sirius energy is having a high frequency and the results are reported to be positive. Negative results are not known. However it is possible that in the beginning of a period of treatment the person can feel more, this is a reaction on the energy. After some time it will become better.

**Sirius beings** visited the earth, several sources have reported this. Information about this topic was kept secret by governments until some time ago. Since a few years more information is available in movies on Television and internet. This all started in the summer of 1947.

**Old Egyptian** people knew already about Sirius. The Gizeh pyramid has got a corridor where the light of Sirius at certain moments is received. Further the conjunction of the Sun and Sirius is giving a triangle of lights at sunrise. The triangle in Egyptian signs means Sirius.

## SEM highlights

- powerfull
- max. 30 seconds
- everybody can learn SEM
- immediatly applicable
- many ways to use
- you can use it during the rest of your live
- SEM is always given for free by remote sending
- learning SEM for a low price
- become a licensed instructor yourself

Web-site with planning of SEM-training-sessions

Planned in several places and countries

## Sirius Energy Method

**Energy for free** which can help people to keep or gain good mental and fysical conditions. This energy can help in healing the body. If you send an e-mail with your First en Family-name or a photo-picture you will receive the energy during some weeks. Also animals can receive energy by means of a Photo-picture. Dog, cat, cow, horse, camel, etc. The energy can be sent to one person or a group af people at a time at any distance. This takes a maximum of 30 seconds. This remote-sending of energy is always given for free.

*The energy is never a replacement for the eventually necessary diagnoses or treatment by a medical person or specialist. The energy is just something extra.*
